RE: Revisions to Draft Final ROD - Site 09 (Allen Harbor Landfill)
NCBC Davisville, Rhode Island
Submitted 18 August 1997, Dated August 1997

Dear Mr. Otis;

The Rhode Island Department of Environmental Management, Office of Waste Management has reviewed the above referenced document and finds the responses to our 24 July 1997 letter to be acceptable. Please note, however, that RIDEM strongly supports the removal of contaminated sediments in front of the landfill prior to creation of new wetlands in this area. RIDEM recognizes that the extent of sediment removal will be determined during the remedial design phase.

If you have any questions or require additional information please call me at (401) 277-3872 ext. 7138.

Sincerely,

Richard Gottlieb, P.E.
Principal Sanitary Engineer
